

COLOSSAL CAREER

# DC-310E-P

## Double Sided Plaster Cutting & Packing Machine

- Tension of material controlled automatically by LOADCELL.
- A number of servo motors on the machine are precisely synchronized for revolving.
- HMI (Human Machine Interface) and touch panel adopted on this machine make positioning of product much easier.
- Roller type cutter is for cutting , sealing process and high production speed.
- Packing paper uses four sides sealing, and the printing on front and back will be able to be matched with each other correctly.
- According to the customer's request, a pack of multi-pieces packing can be done automatically.
- Single layer of release paper will be able to do the single-sided or double-sided lamination medicated plaster.
- Machine will automatically stop as soon as running out of material is detected by auto sensor.
- Machine designed in upright position to facilitate the operating for production. And it is easy to change for making different specification of products and also very easy to do regular maintenance.

Model No.	DC-310E-P	
<b>Product Size</b>	70 x 100 mm One product size only for one machine, extra size optional.	
<b>Max. Speed</b>	100 pcs/min According to the material used.	
<b>Motor</b>	1hp x 4	1/2hp x 2
<b>Heater</b>	4.8 kw	
<b>Human-Machine Interface</b>	8.4"	
<b>Dimensions</b>	L3300 x W1400 x H2200 mm	
<b>N.W.</b>	2000 kgs	

Made in Taiwan
