

COLOSSAL CAREER

DC-313G-P

Gauze Folding and Packing Machine

- Tension of material is controlled automatically by LOADCELL.
- A number of servo motors on the machine are precisely synchronized for revolving.
- HMI (Human Machine Interface) and touch panel adopted on this machine make positioning of product much easier.
- Machine will automatically stop as soon as running out of material is detected by auto sensor.
- Rolling type cutter for shape cutting and cutting. etc. which will promote the efficiency of running the production.
- Machine designed in upright position to facilitate the operating for production . And it is easy to change for making different specification of products and also very easy to do regular maintenance.

Model No.	DC-313G-P	
Max. Width of Plaster	3" x 3" The product is to produce based on the buyer's specified specifications (One product size only for one machine,extra size optional.)	
Max. Speed	40~60 pcs/min (According to the material used and product size.)	
Motor	1hp x 2	1/2hp x 2
Human-Machine Interface	Color 8.4"	
Dimensions	L2400 x W1100 x H2300 mm	
N. W.	1500 kgs	

Note: The above information (parameter) is only for use of your reference. The standard condition is based on the actual design.
