

COLOSSAL CAREER

# DC-303HC-06

## Coating Machine (for oil based medicated plaster and pain relief patch)

- Tension of material is controlled automatically by LOADCELL.
- A number of servo motors are controlled by inverter for synchronized operation.
- Using hot kerosene inside the roller to force circulating flow and also to make the heat evenly spread on the surface of coating roller.
- Thickness of coating is precise and easy to adjust.
- Ultrared ray baking box can be added if found necessary.
- Direct cutting can be done after laminating of coating which can increase its working efficiency.
- Set up of cutting length can be easily done by touch panel of human machine interface.
- It can also be used for production of elastic fabric.

Model No.	DC-303HC-06		
Max. Width of Coating	600mm The product is to produce based on the buyer's specified specifications (One product size only for one machine, extra size optional.)		
Range of Speed	1 ~ 10M/min (According to the material used and product size.)		
Motor	3.5kw x 1	1hp x 5	1/2hp x 1
Heater	12kw		
Human-Machine Interface	Color 5.7"		
Dimensions	L6800 x W1800 x H2000mm		

Registration No.: 41Q12260

Made in Taiwan
